

Does every child around the world value their education?

### Equality

**Equality** means being treated fairly and given the same opportunities, regardless of who you are. Globally, not everyone is treated equally. Not all adults and children have access to education and the quality of infrastructure (buildings) and resources vary greatly.

### Gender discrimination

**Gender discrimination** occurs when people are treated unequally or unfairly, because of their sex.

### Settlement

**Settlements** are places where people live and sometimes work. They can be small or large depending on how many people live there. Some are more developed than others.

### Economy

**Economy** is the way people spend money and the way people make money. The numbers most used to measure economic growth is gross domestic product (GDP) and per capita income (average money per person).

### Trade

**Trade** is the buying and selling of goods and services.

### Natural Resources

**Natural resources** are things that are found in nature and used by living things. Examples include: water, forests, fossil fuels, minerals, plants and animals. These resources can be modified/changed in a variety of ways and used for different purposes.

### War zone

**War zones** are places where people are fighting a war.

### Conflict affected areas

**Conflict affected areas** are places where the existing problems are caused by an ongoing or very recent conflict, and/or there are existing problems that are associated with a previous conflict.

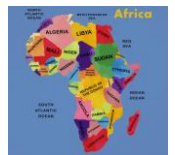

### Developing/developed country

A **developed country** (also known as an industrialised country or more economically developed country) is a country that has more businesses and infrastructures (roads, airports, electricity, etc) than a **developing country**.

There are 7 continents: Africa, Asia, North America, South America, Antarctica, Europe and Australia/Oceania.
