

Computing Learning Organiser – Year 5 Autumn 1 – “Does every child around the world value their education?”

Prior Learning (What we already know?):

- Research using online tools
- Navigate around an online search engine using the back button
- Use research to help develop a piece of work
- Learn to cut and paste images or text using the right button on the mouse
- To edit images (size, location) and text (size, font, bold, underline)
- Use images and text to create a final piece of work

Key Questions:

Do you know of another instance where music has been used to create a feeling / mood?

Would your presentation be very different to the observer without the music?

If someone had a large amount of photos on their computer, what solutions could you offer for organising those photos?

What is more important, the photos you choose / take or the software you use to present them on?

Do you agree that the photos in your presentation give a true reflection of Kenya? Explain.

Can photos ever give a true picture of life in a country?

Key Facts:

Use the insert button to import images/audio files.

You can crop and edit music to change the mood of the presentation.

Stories can be told through photographs and can be enhanced through editing.

New Learning:

- Edit digital photographs to make them better
- Organise photographs for a presentation
- Import music to assist in creating a mood or feeling
- Evaluate and make improvements to a final presentation piece
- Save and organise photos into files – by date, location etc

Key Resources:
