Cut out the labels and add them to your completed human

head

arm

leg

mouth

teeth

hand

nose

ear

foot

eye

finger

toe

face

knee

elbow

neck

hair

chest

ankle

wrist

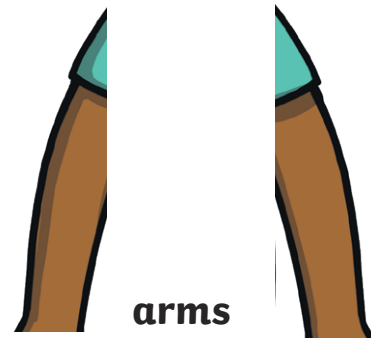

stomach

shoulder

Write a sentence to explain what we use these body parts for.

hands

arms

legs

feet

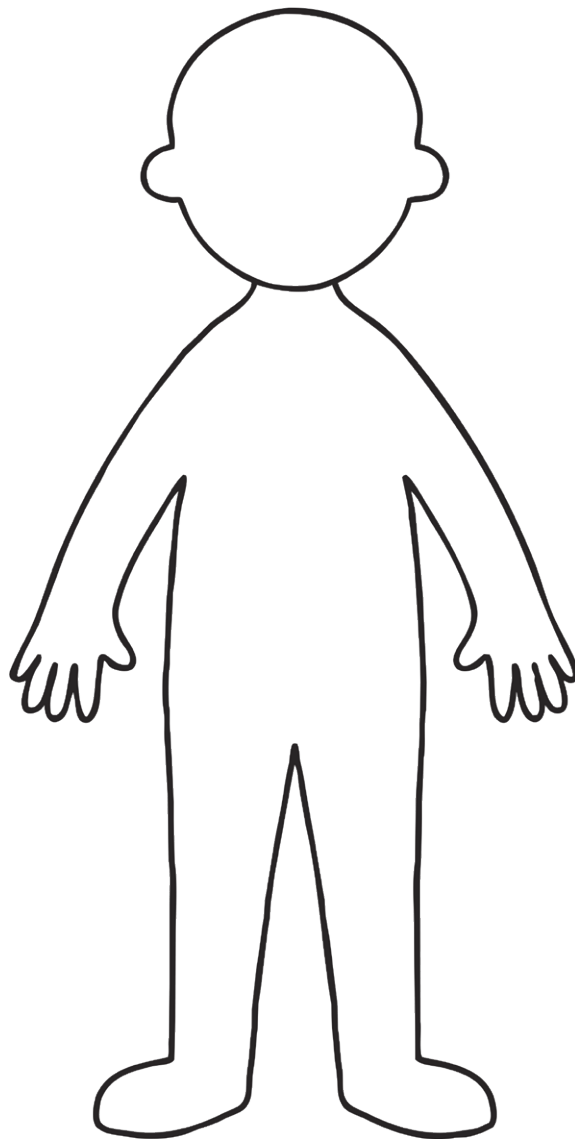

The Human Body

To name, identify and label the parts of the human body.

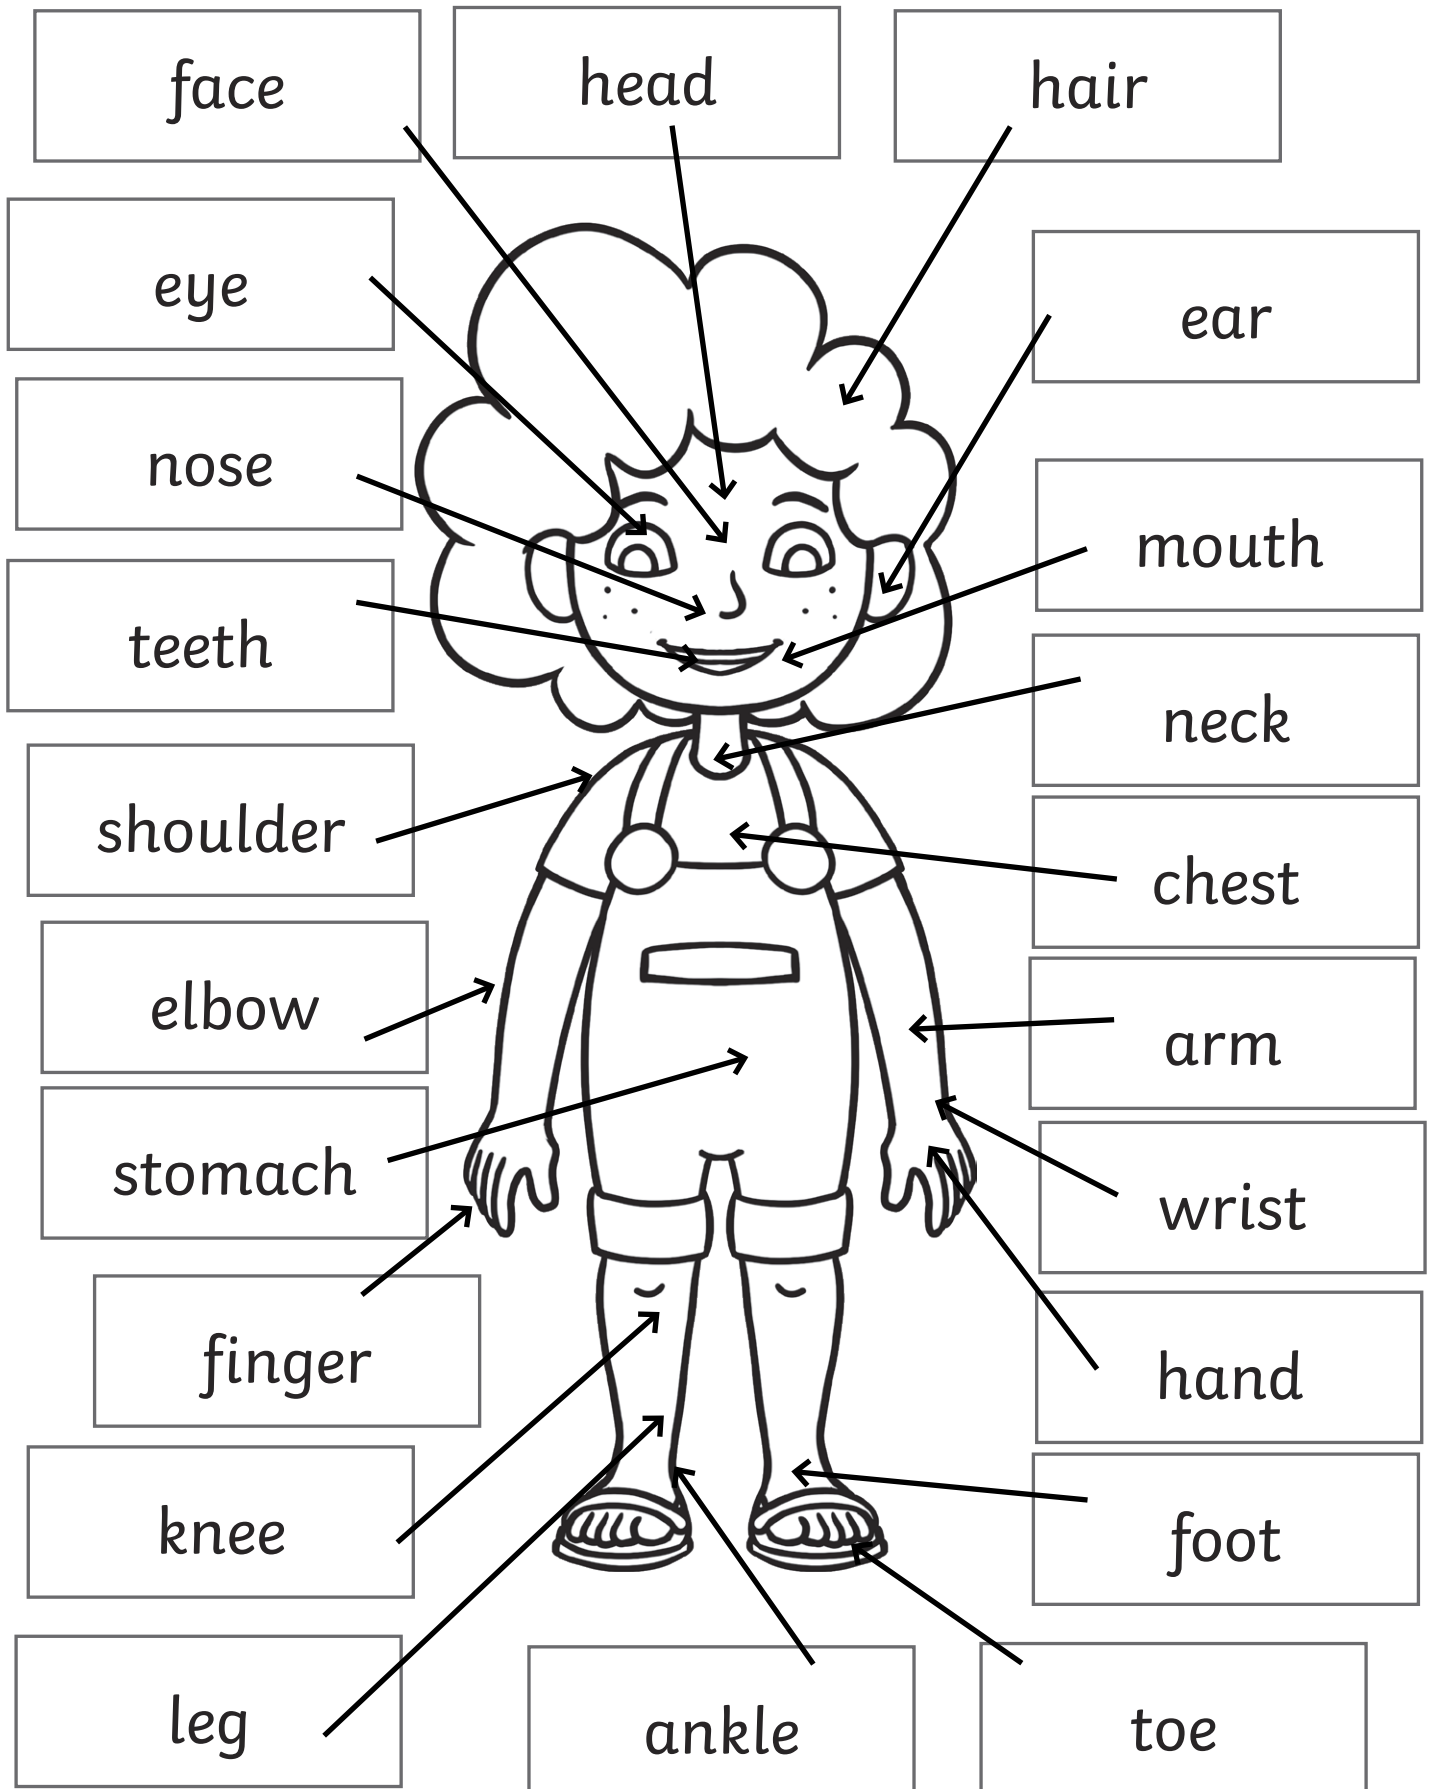

Draw the body parts and label them on the outline below.

Write a sentence to explain what job five of the body parts do.

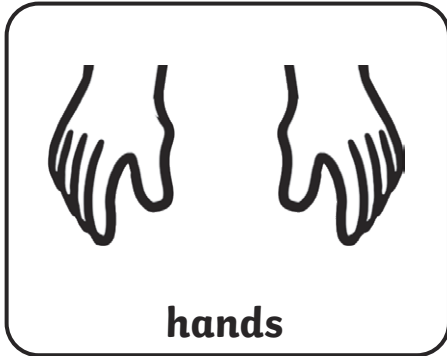

The Human Body **Answers**

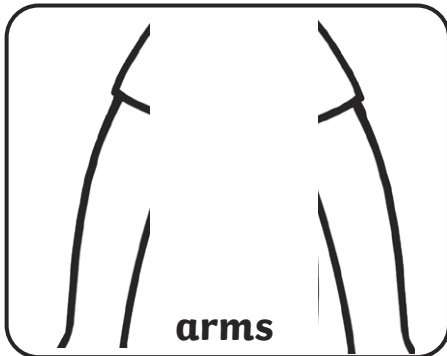

The Human Body **Answers**

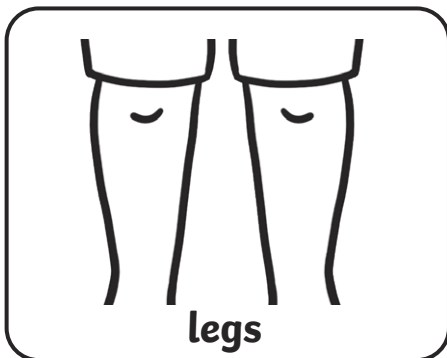

Example answers:

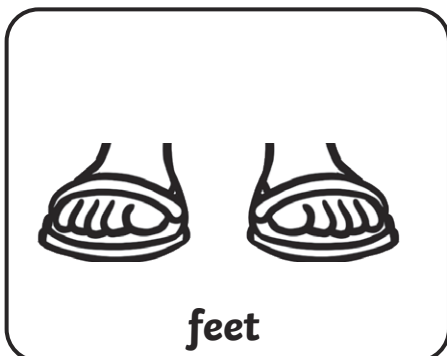

Your hands hold things.

Your arms let you reach out for things.

Legs let you walk run and jump.

Your feet keep you balanced/stop you falling over.
