

## Weekly Round-up

## Friday 30th Sept 2022

Happy Friday Everyone!

As one of the few schools to be recognised as Dyslexia Friendly we would like to make you aware that next week 3rd October to 9th October is Dyslexia Awareness Week. The BDA are running several different events over the week check out the link Dyslexia

Awareness Week 2022 - British Dyslexia Association (bdadyslexia.org.uk)

harvest festival on Monday 3rd October

## Term times

Awareness Week

03 - 09 October 2022

Dyslexia

The BDA we will be hosting a free webinars, Supporting Spellings and Times Table. The webinar is accessible from home and aim to give an insight into supportive techniques from industry-leading professionals. Dyslexia Awareness Week Webinar - Supporting Spelling and Times Tables - British Dyslexia Association (bdadyslexia.org.uk)

Year 6 have been working hard to produce some great pieces of writing this past week. They have written newspaper articles sharing the dramatic events so far in our Power of Reading book 'The Last Wild'. We have been really impressed with their determination to produce high quality work of which they are proud - a great start to the year!

THINK IT.

Year 6 have also been enjoying their PE sessions this term, led by a coach from Northampton Saints Rugby Club. They have developed skills in passing and catching the ball, and are moving into putting these skills into practise in small sided games.

So, the Kingfishers and Otters have settled into school routines and learning so well. Last week we started joining assemblies and this week Father David visited to introduce himself and tell us a bible story. The children have been discovering their new classroom environment and have loved our new role play home corner.

We are still looking for some additional items if you have any to donate. A kettle, a salt and pepper shaker (not glass), any tins of food and an ideal addition would be some dinner plates, side plates and bowls with some real cutlery. Don't forget we have a parent phonics meeting on Tuesday 4th October at 3.30pm.

Year 2 have been exploring their outdoor environment in science. We have been learning about living things and habitats. We have also enjoyed a scavenger hunt around our school field for things that are dead, alive or that have never been alive. We discussed that something must have been alive in order to be dead, like a leaf. We are looking forward to learning more about micro-habitats and minibeasts... we can't wait to share our upcoming DT project with you!

> Check out 'Everything Environmental' on the website for plant-based recipes. Click here!

Help save grasslands. Grasslands are home to many threatened and endangered species, such as bees and butterflies. Grasslands also protect rivers from pollution and hold together healthy soils that store carbon. Support nonprofit organisations that are working toward protecting our vital grasslands!

Homework

Talk

Linking learning from the classroom to life at home can help to improve language and communication skills. We will continue these discussions in class next week.
